

Cambridge Centre for Health Services Research

NIHR Research Methods Fellowship in Health Economics

University of Cambridge

Applications are invited for an NIHR research methods fellow based within the growing group of health economists at the Cambridge Centre for Health Services Research, University of Cambridge.

About CCHSR

The Cambridge Centre for Health Services Research (CCHSR) is a collaboration between two leading health care research groups: the Health Services Research Group based in the Institute of Public Health at the University of Cambridge, and the Health and Healthcare Group based at RAND Europe.

Together, we form a collective of almost thirty researchers from a wide variety of backgrounds, brought together with the common aim of informing policy through evidence-based research on health services, both in the UK and internationally. The groups are led by Martin Roland, Professor of Health Services Research at the University of Cambridge and Jon Sussex, Chief Economist at RAND Europe.

Please see our website, <http://www.cchsr.iph.cam.ac.uk/> for more details.

About the Fellowship

The fellow will split their time between an MSc in Health Economics or Economic Evaluation at City University, London, and working as a research assistant at CCHSR in Cambridge. The post is available for two years full time (part time options available for both the fellowship and MSc). Appointment is conditional on an offer of a place on the MSc at City University.

At CCHSR, the fellow will work on a project developing a decision model to determine the cost-effectiveness and value of information of various novel treatments for systemic lupus erythematosus. Fellows will be encouraged to develop an application for an NIHR Doctoral Research Fellowship (NIHR DRF).

For more details of the MSc courses, please see:

- <http://www.city.ac.uk/courses/postgraduate/health-economics>
- <http://www.city.ac.uk/courses/postgraduate/economic-evaluation-in-healthcare>

The fellowship covers EU-rate tuition fees for an MSc in Health Economics or Economic Evaluation at City University, London, salary for two years commensurate with a research assistant post (£25,023 - £28,982), plus training allowance.

For an informal discussion about the fellowship, please contact Dr Ed Wilson, ed.wilson@medschl.cam.ac.uk

How to apply

More details on how to apply are available from <http://www.jobs.cam.ac.uk/job/10161/>
Closing date for applications: Friday 20th May 2016; Interview date: Friday 3rd June.
