Together we can get it right when treating people with learning disabilities and their families/carers

I am here to help you ensure that people with learning disabilities and their families/carers are involved in their care and treatment while at St.George’s.

I will support you to:

- plan for a person’s admission, treatment and discharge,
- link with the community services,
- provide specialist advice including assessing capacity to consent,
- make reasonable adjustments

Jim Blair
Consultant Nurse Learning Disability
