Role

Empowering underrepresented learners to access and succeed in higher education.
The Widening Participation Outreach forms part of the Student Experience and Engagement Department. The aim of the team is to support young people in making realistic, well-informed decisions about their future, challenging preconceptions and helping them to develop the skills, knowledge and grades required to meet their aspirations. We work with schools and colleges in areas of deprivation or with low progression rates onto higher education, and with young people who will be the first generation of their family to attend Higher Education.

WP Student Ambassadors support the work of the team by acting as positive role models for young people providing the important student view of university. Ambassadors undertake a range of tasks that include mentoring, presenting, leading groups, and acting as tour guides and facilitators – all with support and supervision from the WP Outreach team.

We welcome applications from both undergraduate and post-graduate students across all academic schools. We currently have a shortage of male ambassadors and students studying STEM subjects and are particularly keen to recruit student from both these groups.
