We can spend as long or as short a time on this as you like. If you want to stop at any point, just say so. We won't mind. Are you OK with that?

- yes □
- no □

Now we’ve talked about those things, if you still want to talk about what you think about the doctors and hospital, please could you write your name below:

Name ........................................ Date .............................

So we know we have talked to lots of different children, could you tell me:

How old are you? .......................... years

Talking about doctors and hospital

This explains why we have come to see you and what we might talk about.

It asks you some questions.

Tick the 'yes' or 'no' boxes to give your answers.
We are working to make hospitals and doctor's surgeries better places for children.

We are doing this by talking to lots of different children about what they think of doctors and hospitals.

We want to pass on what children say to the people who plan the hospitals and doctors' surgeries. This is so they can make them better places for children.

Your teacher / mum / dad said you might want to talk about what you think about visiting hospitals and doctors. Do you still feel like doing that?

yes ☐ no ☐

To do this we would need to make a tape of what you say. Your name would be kept secret and only we would know it was you talking.

This means you could say exactly what you liked! Is it OK to make a tape recording?

yes ☐ no ☐

We want to put what children say in a book and on a website. We would show these to the people who plan the hospitals - and to other people who want to know what children think. Would this be OK with you?

yes ☐ no ☐

If you did any drawing or writing we would want to keep them to put in the book and on the website. Would that be OK?

yes ☐ no ☐

If we asked you about something you didn't want to talk about, you could just tell us and we would talk about something else. Is that OK?

yes ☐ no ☐
