

Academic excellence for
business and the professions

Welcome to the new City Learning and Teaching Forum

Gain new ideas for your teaching.

Explore new learning and teaching developments.

Discuss with other staff how to support your students.

The forum has been established to enable academics and staff involved in learning, teaching and student support to discuss learning and teaching, share ideas, explore challenges and find out about new developments at City.

Each forum will run on an informal, drop-in basis with a different learning and teaching topic to explore.

The forum will be overseen by the City Learning and Teaching Committee and will feed into the development of learning and teaching policy and strategy.

We look forward to seeing you there.
