MSc Health Management Online Chat

This CityChat session is for anyone interested in studying our MSc Health Management course. The session will be run by academic staff, giving you the opportunity to ask questions about your chosen course and life at City, University of London. As this is a typed chat group session, you will be able to see the answers to questions asked by others.

Thank you for joining us for today's CityChat session. This session is for students interested in studying our MSc Health Management course. This session runs from 16:30 - 17:30 (GMT). This is an open chat session for you to ask any questions you have regarding these courses and life at City, University of London. During the session, we may also share videos, polls or documents related to your course.

To ask a question, please type it in the chat box. Your question will not post straight away - it will be sent to our Moderators who will type an answer back. Once their answer is complete, it will be published with your question. Please make sure you say which course you have applied to when you post your question. You are also welcome to post just saying hi and introducing yourself!

Hi, I'm Greg the MHM programme director. I look forward to your questions.

Hi everyone, my name is Shanice and I work here in marketing ;)

Hi there!

Hi welcome!

Hi! I am interested in the MSc Health Management and was wondering if it would be possible to do the degree part time alongside full time employment (37.5h/w)? How many contact hours there would be per week, roughly, and are the lectures during working hours or there are evening / weekend classes? Thanks!

We have a broad mix of part-time and full-time students
Lectures are in the daytime, weekdays
Part-time students complete 20 days per year, each year for two years

Hey, I am and I would like to know about the placements after the completion of the course Msc Health Management

Details of internships are on the website. What is your question?

I have done BDS from India in 2010 and then I got married. My husband is in British army, we spent good 7 year in Germany but now I back to London. My question is can I apply for msc healthcare.
Hi, this is a very international programme so you can apply, assuming you meet the entry requirements of course. Details can be found on the course page: https://www.city.ac.uk/study/courses/postgraduate/health-management

Health Management MSc Course
City’s MSc Health Management course provides business skills for managers and leaders in healthcare, pharma, and management consultancy.

Hi, I’m looking forward to starting the MSc. Health Management course in January.

Hi, welcome!

Hi! My name is. I am a Biotechnology and Business student graduating next spring. I was wondering, do you recommend a couple of years of experience before this master’s or can I apply for next year?

Each application is considered separately. It will depend on the strength and standing of your degree. And, your maturity and contribution as demonstrated in your CV and personal statement.

Hi, my name is. I’m looking forward to starting the MSc. Health Management course in January.

About job placements. Not internships.

Hi, there are details regarding job prospects after graduation at the bottom of the course page (please see below). We also have a very dedicated careers team who will be happy to help you with all things employment related. I hope that answers your question!

www.city.ac.uk/study/courses/postgraduate/health-management

Health Management MSc Course
City’s MSc Health Management course provides business skills for managers and leaders in healthcare, pharma, and management consultancy.

I have a couple of initial questions: 1) I see online that applications will be open soon. What are the key dates and deadlines for those looking to apply for the full-time September 2020 start? 2) Do you have any advice for the personal statement? 3) Lastly, any advice for international students application process? I am Canadian!
Hi

I am married to a Canadian so that is a plus for your application. It is best to get applications in early. Personal statement - be yourself, demonstrate contribution and leadership potential

My start date is 14th Jan, could you kindly advise where I can access my timetable. I’ve tried having a look on StudentHub, but can't seem to find it

Please contact the Academic Administrator Steve Barker - he will send you a timetable.

About job placements not internships

Placements is a generic heading, these are not separate from internships, rather they are the same thing.

The University requires two references for the application. I graduated from my undergraduate degree in 2012. I would find it difficult to get academic references anymore. Would two professional references suffice?

This will be fine, on a leadership programme professional references are preferred.

Hi all

Thank you for the information Greg! Has a date been confirmed as to when the applications open?

Applications open 2 January 2020 for Sept 2020

Is Msc Health Management is online degree?

The MHM is attendance only.

I noticed the internship opportunities within the programme. Are they usually organised in blocks of full weeks or it is fairly flexible in regards of the timetable how it can be arranged with the placement provider?

These are two days per week for three months, these are not in blocks.

Roughly how many hours a week would a part-time student need to dedicate towards studying? I am currently in full time employment, my company are supportive and have provided me with flexible working to allow me to attend lectures. My office is based in Kent, so I will need to work out how I plan to balance self study Vs attending lectures and remote working Vs office time. It should be an interesting and challenging 2 years for me, but can't wait :)
Part-time is two days per year, each year for two years.

Hi there! I am a South African, studied a 4-year international business degree and my average is 65%. I was wondering if this meets the requirements. I know sometimes requirements are stricter for South Africans. I'm deeply interested in the field of healthcare and would also like to know if I could send my CV to someone to check if I would be a good candidate.

All degrees are assessed on their merits. The standard is the same for all international, UK, EU.

CV checking is your responsibility, and your skills in doing this are part of our selection process.

Officially, what is the percentage equivalent of a 2.1 degree? And what is meant by this term honors?

Hi, this is a question for detailed and careful study by us when you apply. Your degree will be benchmarked against the UK standard.

When in the year would the internships take place? Have students in full-time employment previously gone for the internship opportunity?

Sometimes students in full-time employment go on internship. Internships are typically February through to April.

Thanks Greg, as a part-time student would that be Feb-April in the second year of my course?

Internships are optional, it is up to you, it depends what you want. Internships are not a requirement.

Hi, my name is [masked]. I'm currently in my final year of studying Medical Technology from India. My question is what is the probability of securing an internship?

Depends on your strengths as a candidate. The internship programme is extensive and popular.

When submitting the application, does the attached certificates have to be certified copies or normal photocopies are fine? I assume the originals will be checked if an offer is made.

Certified is preferred.
What is the application fee?

The UK/EU fees are:

Full-time: £14,790  
Part-time: £7,395 per year

The non-EU fees are:

Full-time: £19,890  
Part-time: £9,945 per year

What is the application fee?

Sorry, that's the tuition fees. There is not an application fee

Fantastic! Thank you, Shanice!

You're welcome!

Is the application for September 2020 more likely to open after the New Year? Just to get a rough idea of the time frame.

Applications open early January

what is the schedule like full-time student? how many days?

You will be at university 40 days over the academic year for lectures

I'm going to drop off the chat now, but thank you for answering my questions. Look forward to meeting you in person come January

Thank you for attending and I hope you found it useful!

Thank you guys for all your answers!

No problem at all. Thank you for all of your questions!

In regards to applications - is it rolling admissions? or is there an application date that closes and decisions are made after such time? Thanks for all the info!
Applications are considered and decided on a rolling basis.

how many days a week? for the attendance?

Please contact our academic administrator Steve Barker for a copy of the timetable. The days vary in each semester.

This session has now ended. Thank you for joining us for today’s chat. If you have any questions, please email pgenquiries@city.ac.uk
