Studying Accounting and Finance at Cass

This Online Chat session is for anyone who is interesting in studying Accounting and Finance at Cass. The session will be run by current students giving you the opportunity to ask questions about your subject of interest and find out what life is like as a university student. Throughout the session you can type questions for the students to answer and there will be interactive quizzes on student life and your subject.

Good morning!!

Welcome to the Accounting and Finance taster session! Now we've all introduced ourselves, here's a quick run down of what we will cover in the next hour...

- A short taster session lead by Dr Danielle Lyssimachou
- A subject-based quiz
- Advice from our current students
- Q&A. (Any questions you have for our students or staff welcome. Please save your questions for the question and answer session at the end.)
  So to begin with please watch this short taster session.

Good Morning

BSc Accounting and Finance Taster Session

https://youtu.be/TmT2QiU0T1I

How many contact hours of learning are there a week?

Hi! This year I have 5 lectures - 2 hours each every week. And I have 4 tutorials, 1 hour each every week. Usually, you will probably have 5 lectures (2 hours) and 5 tutorials (1 hour) every week.

What a levels do you require to go into accounting?

Hi! You can study any a level subjects, but you do need a grade 7 for maths GCSE.
How many hours of study should we be doing independently

Hello! Personally, I spend about 3 hours for each module (I have 5 modules) every week. It can take longer when I have coursework to finish and I spend more time (about 20-30 hours a week) a month before the exams.

What's Cass?

Hi! Cass is the business school of City University, studying Accounting and Finance means you will be a part of this school.

Are there different campuses in City? In different locations?

Hi Zahra. Yes there are different campuses however most undergraduate study on Cass courses takes place on main campus at Northampton Square.

Hi all, we will answer the majority of questions at the end of the session. Your question may be answered during the video which is playing now :)

Are there different campuses in City? In different locations?

Hi! There are different campuses but they are all very close together.

What modules are included

Hi Mariam. The course is made up of core modules as well as elective modules which you can choose to take. For a full list of these follow this link: https://www.cass.city.ac.uk/study/undergraduate/courses/accounting-and-finance.

**Accounting and Finance BSc Undergraduate Degree | Cass Business School**

Cass Business Schools BSc in Accounting and Finance is one of a small number of UK degrees supported by the Institute of Chartered Accountants in England and Wales. The programme introduces all areas of accounting and finance and can be a fantastic start to your career.

Are there any specific combinations of levels that are seen as less desirable/competitive?
Hi! I don't think so, as long as you have high grades. Personally, I did Sociology, Criminology and Psychology as my A-levels. It might help you in the future for some of the modules if you did A-levels Maths.

Will you be able to send the slides and transcript of today to us later please?

Yes we will be able to do this via email following the event

Is Accounting & Finance similar to Economics? What is the difference?

I'd say although there are some overlaps in what you study, for first year in accounting and finance we do 2 modules called micro and macro economics. Economics is a lot more theory based, while A&F covers alot more accounting modules including financial accounting and management accounting, audit and tax alongside finance ones.

What if you don't have a 7 for gcse maths but are taking maths A level

I think that would be alright as long as you achieved an A at A level for maths

How many different campuses are they?

For the university, there is the main one Northampton square which covers all the undergraduate courses, there’s a few other campuses for postgraduate study such as the Law one or the Cass campus

Will we be doing a lot of essay writing or is it more on calculations

Essay style course works and exam questions are a big part of the course. I would say 50-60% for essay questions and the rest for kind of calculations questions. Some modules are more “essay-heavy” like Business Law or Macro/Microeconomics and some modules require you to do more calculations like Financial and Management Accounting.

What do you enjoy about this course the most, and how is university life if your not used to staying away from home?

I enjoy the learning on the course, teaching is excellent and the class is around 150 students so you get to make great friendships. There’s alot of things in university to get involved in including different societies, and sports teams

If you do this subject in uni, do you have to stick to a job subject related
Hi! No! We have a lot of top employers coming to the university and telling us that you can apply from any degree backgrounds. My friends from my course got internships in Consulting, Finance, Investment Banking, Audit.

We will answer as many questions as possible at the end so don’t worry if we miss your question right now, you can send it again later and we will do our best to answer.

We hope you found the video useful! We will have time for questions towards the end of the session but for now it’s time for our subject-based quiz to see how much you have remembered and it’s a chance for us to find out a bit more about you... Don’t worry it’s just a bit of fun, nothing to worry about. Please note if you’re using a mobile please swipe left to see the quiz and if you’re using Internet Explorer you may need to click on the question mark to view the questions. Ok here we go...

Is it difficult to go into either accounting or finance later on in life if you study a different course at university such as international management or business?

It’s possible to get into these professions through other degree courses, the advantage of doing A&F is gaining credits for the professional accounting qualifications to qualify as an chartered/certified accountant.

### Why are you interested in Accounting and Finance?

<table>
<thead>
<tr>
<th>Reasons</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>I like maths and numerical subjects in general</td>
<td>30.43%</td>
</tr>
<tr>
<td>Someone in my family works in this field</td>
<td>8.696%</td>
</tr>
<tr>
<td>I have heard that Accounting / Finance jobs pay very well and this is important to me</td>
<td>10.87%</td>
</tr>
<tr>
<td>I have studied Accounting, Economics or Business before and I really enjoyed it</td>
<td>30.43%</td>
</tr>
<tr>
<td>I have always been interested in business and entrepreneurship</td>
<td>19.57%</td>
</tr>
</tbody>
</table>

Are you given a lot of opportunities to look into the actual 'job life' while studying, e.g. talks of people in the field or internships?

Hi! Yes, we do have a lot of opportunities like these. For example, our lecturers invite people from the industry to speak during our lecture. Moreover, City Careers Team regularly invite top employers on campus who give presentations about their company and application tips.
How competitive is the Accounting & Finance course at CASS?

It’s one of the most demanding courses, we do 5 modules each term, and complete 150 credits each year while most other courses do 120.

Is it good to have a combination of maths and economics for this course?

Hi! Yes, it might help, so it is easier for you to understand some of the concepts in the beginning for some of the modules.

Great to see all of your answers! This one was for us to get a sense of why you’re interested in Accounting and Finance. Here’s the next question...

**2. What do you think is more important during your university studies?**

A. Obtaining excellent grades 88.89%
B. Securing a summer internship / full-year work-placement 53.70%
C. Networking / attending career events and professional panels 59.26%
D. Making good friends and creating memorable experiences 48.15%

Do you get placements?

Hi! You have an opportunity to take a placement year between your 2nd and 3d years of study. However, you will need to look for a placement yourself but Cass Careers Team can help you to do that. Personally, I will be doing a year placement with PwC in Audit starting this coming September.

2. There is no real correct answer to this, all of these things are valuable experiences that you can gain from studying at Cass. What we will say though, is if you are thinking of taking a placement year or an internship - do it! We have fantastic connections with industry and have a placements team dedicated to helping you. It’s a great addition to your CV and proves to employers that you already have experience in the industry when you graduate.
What topics are most challenging in this course

everyone's different in this sense, however we cover a lot of different modules and elective module choices in all 3 years where you can choose modules which interest you

3. Which one of the attributes below do you consider as the most important for succeeding in your professional career? (choose only one option)

<table>
<thead>
<tr>
<th>Attribute</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Excellent work ethic</td>
<td>92.59%</td>
</tr>
<tr>
<td>Intelligence</td>
<td>3.704%</td>
</tr>
<tr>
<td>Connections</td>
<td>3.704%</td>
</tr>
</tbody>
</table>

Do you mainly have lectures or seminars

I have 5 lectures and 5 tutorials (small classes with 20-30 people) every week.

3. It looks like you all value work-ethic which is great!

Are lectures the only type of lesson you have or are there different types?

Hi! We have lectures and tutorials.

5. True or false - if I study Accounting and Finance my only job option is to become an Accountant.

<table>
<thead>
<tr>
<th>Option</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>b. False</td>
<td>100.0%</td>
</tr>
</tbody>
</table>

Advice for what to write in personal statements for this course

Above all, I would make the statement show your interest in the subject and the reason why you want to study at the university
Hi is the course three or four years?

Hi! The course is 3 years but if you do foundation, placement or study abroad - it will be 4 years.

5. This is false - Accounting and Finance graduates can go on to do a number of roles such as being an Auditor, Financial Analyst, Tax Advisor, Consultants and more. Of course you can also become an Accountant or a Chartered Accountant as well. There are many options!

what are credits?

each module you study gives you 15 credits, and at the end of the year you have a total of 150 credits

For Investment Banking, would Accounting or Economics be best suited to pursue this career role?

Hi! Yes! My friend finished her Accounting & Finance degree two year ago. She is now working at BNP Paribas in the investment banking department.

That’s the end of the quiz so next we’ll move on to some advice from our current students. They will post their advice on how you can prepare for studying at Cass, and we will also continue to answer your questions.

do universities prefer if you study another language for this course or is not that an attractive quality when applying
I think studying another language can be a great thing to mention, and there is also the chance to study a foreign language at the university which fits around your studies.

Hi everyone, for preparing to start the course, what I did was read 2 books titled The Money Machine: How the City Works and The Game: How the City Really Works. I also watched the movie The Big Short with an all-star cast focusing on the financial crisis. I’d also recommend checking out journals such as the FT or The Economist and also an accounting one known as accountancy daily.

Did you manage to get the PwC placement by yourself?

Hi! Yes, I applied on their website and completed all applications steps. Cass Careers Team helped me to prepare for that so that I could do mock interviews with them first before attempting a real interview.

do banks frequently offer placement to CASS students?

Yes, students get placements with big banks and also the Big 4. Students apply themselves and the careers team at the university are a great help in preparing for interviews and assessment days.

is it easy to change courses from another finance course

At Cass Business School, we have the finance cluster of degrees (BSc Finance, BSc Investment and Financial Risk Management, BSc Banking and International Finance). Within those you can easily change degrees after the first year. To transition to the BSc Accounting and Finance though you must fulfill some additional criteria. So the simple answer is that it is possible, but not always feasible.
Hi all! There are some sources I think might be useful for you: [https://www.linkedin.com/pulse/how-i-get-chance-meet-network-inspiring-leaders-cass-marcomms?trackingId=-%2FtQGplUXIOYvo.JgMpfwpVg%3D%3D](https://www.linkedin.com/pulse/how-i-get-chance-meet-network-inspiring-leaders-cass-marcomms?trackingId=-%2FtQGplUXIOYvo.JgMpfwpVg%3D%3D) - I wrote the blog on LinkedIn published by Cass Marketing Team about the scholarship and other opportunities available at Cass. [https://arguablyhonest.com/category/miscellaneous/university-tips/](https://arguablyhonest.com/category/miscellaneous/university-tips/) - Blog by Cass alumni with a lot of useful articles about the university life. She has not updated it in a while but old articles are still relevant. Enron: The Smartest Guys in the Room - Interesting film about one of the biggest accounting scandals. [https://www.pwc.co.uk/careers/student-jobs/employability.html](https://www.pwc.co.uk/careers/student-jobs/employability.html) - PwC Employability Hub - a lot of useful resources gathered together by one of Big 4 firms. [https://www.youtube.com/channel/UCoXJaG9bh8mprSgtRFayhMQ](https://www.youtube.com/channel/UCoXJaG9bh8mprSgtRFayhMQ) - YouTuber talking about her experience in accounting industry and Big 4 in particular (+ other useful productivity videos)

**How I get the chance to meet a network of inspiring leaders.**

The Cass Global Women’s Leadership Programme scholarship was a great help to me as it enabled me to become financially independent from my parents. Since moving to London to pursue my BSc Accounting and Finance degree at Cass Business School, I've found it hard to juggle my work in hospitality and m

---

**What are the benefits of having accreditations in this course?**

It means if studying for a professional accounting qualification, you already have covered some of the exams by studying the course

---

**What are the entry requirements for this course?**

---

**What’s the difference between lectures and tutorials**

Lectures are generally the whole year together in a hall with the lecturer presenting, tutorials are small groups generally less than 20 going over questions/assignments from the lecture.
What are the entry requirements for this course?
You can find the entry requirements here: [https://www.cass.city.ac.uk/study/undergraduate/courses/accounting-and-finance](https://www.cass.city.ac.uk/study/undergraduate/courses/accounting-and-finance) just go to the application tab.

**Accounting and Finance BSc Undergraduate Degree | Cass Business School**
Cass Business Schools BSc in Accounting and Finance is one of a small number of UK degrees supported by the Institute of Chartered Accountants in England and Wales. The programme introduces all areas of accounting and finance and can be a fantastic start to your career.

Are tutorials more focused on the students? How are they different from lectures?

Yes, tutorials have more of individual approach than lectures. Tutorials are run in smaller groups of 20-30 people, so the tutor have more time to answer all of your questions and discuss topics you struggle with.

What other jobs can you pursue with a degree in accounting and finance?

There are many career options like being an auditor, a financial analyst, a tax advisor, a consultant... If you would like to find out more you can see information about careers on our website here: [https://www.cass.city.ac.uk/study/undergraduate/courses/accounting-and-finance](https://www.cass.city.ac.uk/study/undergraduate/courses/accounting-and-finance)

**Accounting and Finance BSc Undergraduate Degree | Cass Business School**

do you do a lot of maths

There are some modules which have maths, but we don’t do as much as a course like actuarial science which is mostly maths focused

apart from work ethic which qualities would you say are beneficial to have or desired for this course
Hi! I think communications skills (both written and oral) and team working skills are very important.

Apart from work ethic which qualities would you say are beneficial to have or desired for this course

I would say attention to detail, a liking of figures, analytical ability to present and communicate your findings, critical thinking, a friendly and collegiate personality.

What is the university looking for in a student for this course?

I think your motivation and your genuine interest in the course are important.

How many days a week do you attend?

It varies term to term, but you are in probably 4 or 5 days a week.

So if you do this course you can do both accountant jobs as well as finance?

Hi. Yes, I spoke with a lot of employers and they usually are happy to accept students with any degree backgrounds.

Are there any books which you would recommend reading related to the subject?

There is a reading list for students who have been offered a place on the degree here: https://www.city.ac.uk/applicant/reading-lists

For now, I would focus on one or two of the following titles:
- Reading and understanding the Financial Times, by Kevin Boakes
- All You Need To Know About The City, by Christopher Stoakes
- The Game: How the City really works, by Alex Buchanan
- The Money Machine: How the City works, by Philip Coggan

Reading lists

No widgets were found

How is the course broken down into modules?
There are core modules that you will study and elective modules that you can choose to study. You can find out more information on the Application section of the website here: https://www.city.ac.uk/study/undergraduate/courses/accounting-and-finance.

**Accounting and Finance BSc Undergraduate Degree | Cass Business School**

Cass Business Schools BSc in Accounting and Finance is one of a small number of UK degrees supported by the Institute of Chartered Accountants in England and Wales. The programme introduces all areas of accounting and finance and can be a fantastic start to your career.

**Is it difficult maths that takes place**

**Hi! Sometimes, it can be a bit difficult. I have only done GCSE Maths and I did not do A-levels Maths. However, you have plenty of help at university if you struggle with Maths.**

**Is it possible to get sponsorships for this course while at university? If so how do you do it**

**There's a lot of funding opportunities in place, more information can be found here https://www.city.ac.uk/study/fees-and-funding**

**Fees and funding**

Find out about fees at City, as well as the range of funding options.

**Do CASS students get bank placements as most of them go to target schools?**

**Yes, Cass students do get placements at top investment banks**

**Is it hard to get into accounting and finance**

**Hi! Yes, I think it is a quite competitive course.**
To aspire to become a CEO or CFO of a financial establishment, what path would be more suitable to take?

Most CEOs/CFOs in the FTSE 100 have an accounting qualification ACA on their resume.

Do you stay on the campus or would you have to travel into London each day?

It’s totally up to you. Some students choose to live in university accommodation in their first year, and some students prefer to commute in.

Do you have to study about balance sheets in detail?

Yes, that is a core part of financial accounting.

Do you have to study about balance sheets in detail?

Hi! Yes! We cover it in a lot of details!

For this course do you cover the elements of enterprise, innovation, stock price etc (basically what we cover in business and finance for A level)

Hi! Yes, you will have a rounded business background after finishing this course. The course is not only about accounting and finance.

What are universities looking for in your personal statement?

I’d say to show a keen interest in the subject and why you want to study at the university.

All of my work experience has been cancelled, as has the lectures that I had signed up for, apart from reading and subscribing to online newspapers/publications, what else would you suggest to help build a good personal statement?

Reading the financial press (e.g. FT, The Economist) and engaging in virtual trading (which is trading on the stock exchange using a fictional portfolio) - please do not use any real funds!

How are we assessed and tested?
You will be assessed using a variety of methods, depending on module choices including: coursework, unseen written examinations, taking place at the end of each term (or at the end of a year, if a module is taught over two terms), class tests, online quizzes and tests, using the Virtual Learning Environment, presentations, group projects, individual projects.

Are there any podcasts that you would recommend that relate to this subject?

I like to listen to any top business podcasts on Spotify. They all help you to be a more business-savvy person.

What features should you include in your personal statement?

I think you should include: your motivation, what have you already done to prepare for this course, what other achievement you have (e.g. volunteering, sport).

Approximately, what is the gender split like in recent years?

It is around 50/50.

If you struggle with essay writing will the uni help you?

Yes, there is academic support for a variety of things, and there are sessions on essay writing and how to structure essays.

Would it be good to know how to use excel before the course and is it good to put in your personal statement?

Absolutely. Microsoft Office skills, especially Excel, Word and Outlook are really important. If you can have good working knowledge of those before joining even better. Otherwise, at Cass you will be given the opportunity to work on these skills via an online free module.

How to know if this is the subject for you and if this is what you want to study

I’d read up on what modules are covered and compare the course with other degree options and see if they interest you more. I like my course as there's a good breadth of subjects covered and we have a good split of both accounting and finance modules.

Why did you choose this course to study
I wanted to know more about finance side of business and this course was the most challenging at Cass, since it has more credits.

What makes a student desirable and well matched for this course

We are looking for ambitious and hard working individuals, with attention to detail, good analytical skills and the maturity to pursue the many opportunities that university life will offer them.

What do you enjoy most about the course?

I really like that we have people from the industry coming to our lectures. Moreover, we have a lot of practical exercises for most of our modules. It really feels that you are actually preparing for work, rather than just studying dry theory.

Do you have to do dissertations?

In 3rd year we have a Final year project i.e. dissertation which covers 2 terms, this is something I’ve just finished and it was a challenging but rewarding piece of work. There’s alot of work needed to go into it, but it teaches you alot of research skills.

am i going to be at a huge disadvantage if i have not studied business studies or economics

Absolutely not, we start from scratch in accounting and finance but work in a different way to an A level course. Greater depth and breadth of learning, we go into the whys and hows of things.

am i going to be at a huge disadvantage if i have not studied business studies or economics

Hey! No, not at all! I did Psychology, Criminology and Sociology for my A-levels. Now, I am a top 10% of students on my course! I don’t feel any disadvantage.

What are credits and why is it useful to have 150 compared to 120?

120 credits is the usual number covered for a year, they just represent a full year of work. doing 150 in A&F showcases the rigour of the degree and it may look more impressive to employers.

How many places are on the course?

I am not sure what is the maximum capacity but I have around 130 students on my course.
Are there any specific books we should read or other things to read in general that can help us?

There are some resources I think might be useful: [https://www.linkedin.com/pulse/how-i-get-chance-meet-network-inspiring-leaders-cass-marcoms/?trackingId=%2F1DgU%3EYOYo.JeMpfwpGw%3D%3D](https://www.linkedin.com/pulse/how-i-get-chance-meet-network-inspiring-leaders-cass-marcoms/?trackingId=%2F1DgU%3EYOYo.JeMpfwpGw%3D%3D) - I wrote the blog on LinkedIn published by Cass Marketing Team about the scholarship and other opportunities available at Cass. Posts about University tips written by Gaby Grzywacz

does studying a level history help with the analytical skills required for the course

Probably it's a good thing! Analytical skills are a really important skill to have

How long is each lecture and tutorial?

For me, a lecture is 2 hours and a tutorial is 1 hour.

| does studying a level history help with the analytical skills required for the course |
| it might also help you in answering essay-style questions :) |
We've got 5 minutes left of the session so please ask any more questions you have now. We will also be sharing a link to the video at the start of the session so look out for that.

Are you allowed to find a part-time job in the campus vicinity?

Yes, there's a lot of opportunities for part-time jobs including being a student ambassador for open days, among other jobs listed on the university job site Unimats.

Is there a large number of international students?

Yes! I am from Latvia and have a lot of friends from Lithuania, China, Spain, Russia, Italy and all other different places.

Is the maths similar to A level maths?

Yes, the maths in the course is not any more difficult than the maths covered at A level.

Will studying a level accounting help you?

Yes and no. You will know some of the basics, but then again you will re-evaluate some of the things you have learnt and start viewing them from a different perspective. It is not a pre-requisite though to have studied accounting before.

Is studying computer science and business studies at a levels good?

Yes, it might help you in the beginning. For example, one of the elective during year 1 is VBA Programming - your computer science background might help you in this module.

What is it like to study in a big city like London?
It's a really vibrant and exciting place to study! There is also some information about what it's like to live and study in London, including travel information here on our website: https://www.cass.city.ac.uk/study/undergraduate/student-life

**Undergraduate student life | Cass Business School**

Discover what being an Undergraduate Student will be like at Cass Business School: from living in the heart of London to fantastic clubs and societies.

Is it ok to do this course if I am studying maths, furthermaths and economics as my a levels

absolutely!

how would you be able to juggle having a job and studying?

I would make studying the priority and then if you have spare time then you can work, but not at the expense of your studies
What newspapers should we read relating to finance

The Financial Times and the Economist

What is it like to study in a big city like London?

There sooo many opportunities and things to do! I love London museums, food markets, beautiful parks. Moreover, there are a lot of employers in London who regularly run events open for students.

The taster session has now finished. Thank you for joining us and if you want any further information about our BSc Accounting and Finance then do feel free to get in touch or visit our website.
