Guidance for Periodic Review

Scope

All taught and research programmes at City, University of London, including all collaborative provision except validated programmes (for which a separate process of revalidation exists).

Specific arrangements for validated provision are set out in the Validation and Institutional Partnerships Handbook.

Date approved/re-approved

XX

To be read in conjunction with:
Quality Manual, Section 8.
1. **Policy for Periodic Review**

   The Periodic Review Policy can be viewed online in Section 8 of the Quality Manual: [INSERT LINK]. This guidance should be considered in conjunction with the policy.

2. **Introduction**

   Periodic Review is City’s peer-review process to review a programme of study (or set of related programmes). The process is an opportunity for enhancing the programme through a retrospective analysis since programme approval or the last Periodic Review. Periodic Review also provides an opportunity to consider future development of the provision. Each programme (or set of related programmes) is reviewed every 5 years.

   The review process is School-led. Student and Academic Services provides University-level oversight and developmental, policy and governance support.

3. **Timeline and Process**

   The Educational Quality Committee is responsible to Senate for setting a timetable for Reviews according to a 5-year cycle, in liaison with Student and Academic Services.

   It is expected that Periodic Reviews should be undertaken one year prior to any external review (for example professional accreditation), so that the Periodic Review can inform preparations for the external review. Where the underlying objectives of both review processes are similar it may be appropriate to align the timing between Periodic Review and external review more closely, or schedule a combined review event following discussion between the Programme Director, Associate Dean (Education), the School Quality Team and Student and Academic Services and in liaison with the relevant Professional, Statutory or Regulatory Body (PSRB). Any change to the Periodic Review timing should be approved by the Educational Quality Committee.
An indicative timetable for Periodic Review is provided on the next page. Further information on each stage can be found later within this Guidance. A full checklist of tasks can be found in Appendix 1.

4. Preliminary Meeting

Attendees usually include:

- Associate Dean (Education), or equivalent
- Head of Department (or equivalent)
- Programme Directors (this may include staff from partner institutions where appropriate)
- Student and Academic Services representative
- School Quality Team
- LEaD Academic Liaison
- School or programme administrator (if required)
- Associate Dean (Research) may attend if the Periodic Review will incorporate research degree provision
- Academic Partnership Co-ordinators for any partnership provision included

Items to be discussed include:

- Scope and coverage of the periodic review
- Documentation (see below) and identification of any gaps
- Confirmation of people involved, roles and responsibilities. This includes the support available from the School Quality Team, Student and Academic Services (S&AS) and LEaD.
- Consideration of the Development Event, including when this can be scheduled.
- Development of the Reflective Review and Action Plan
- Consideration of who to propose as the External Panel Member (for PARC approval)
- Identifying a preliminary timeline for the Review process, including indicative dates for the Review event

Documentation

The Preliminary Meeting is supported by advance circulation of documentation pertaining to the programme. The following is an indicative list of information to be provided; additional information may be requested at any stage to support the Review Panel:

- School Plan
- Data aligning to City’s Vision and Strategy, including employability, student experience and progression for the programme(s) under review.
- Action plans from past Periodic Review(s)
- Annual Programme Evaluations since the last Periodic Review
- External Examiner Reports and responses (including viva voce Chair reports for research programmes) since the last Periodic Review
- Student Survey Data – e.g. NSS, PTES, PRES, Your Voice and other available student feedback.
- Module evaluation scores and comments for the last 2-3 years
- Destinations data for the last 2-3 years
- Programme Handbooks, which should include programme and module specifications
- Most recent Professional, Statutory or Regulatory Body report (if applicable)
- For partnership provision, annual reports from the Academic Partnership Co-ordinator for the last 2-3 years.
- Relevant QAA subject benchmark statements.
- Relevant Committee minutes (SSLC, PARC, Board of Studies)

5. Development Event

The Development Event is an important component of the Periodic Review process. The Event provides an opportunity for reflection and action-planning by all members of the Programme Team(s), including, where applicable, staff from partner institutions; it also demonstrates the developmental and facilitative nature of Periodic Review. It should be informed by the background of the documentation listed above.

Attendees usually include:

- Associate Dean (Education), or equivalent – Chair
- Head of Department
- Programme Team
- School Quality Team
- Academic Partnership Co-ordinator
- LEaD academic School liaison
- Student and Academic Services representative

Development Events provide Programme Teams an opportunity to:

- Contribute to discussions relating to the planned medium and longer term development of the provision, building on and in support of Annual Programme Evaluations, and development plans.
- Review ongoing relationships with current partners, with the potential to review the relationship.
- Reflect on provision, including current teaching/assessment practices and curriculum (or equivalent for research programmes), in the context of management information (including external examiners and student feedback).
- Reflect on alignment to City’s Vision and Strategy, including employability, student experience and progression.
- Explore the development of new provision, if relevant.
- Explore new and innovative approaches to the delivery of programme content. For example, different learning and teaching styles, diversity of assessment methods and building links with other departments, Schools or partners.
- Explore student support matters such as personal tutoring.
- Identify any staff development needs.
- Reflect on PSRB requirements (if relevant).
- Discuss how the Reflective Review and Action Plan will be developed.

A template agenda for the Development Event can be found in the Quality Manual here: [INSERT LINK]

Following the Development Event the Associate Dean (Education), or equivalent, in liaison with the Programme Team, School Quality Team, LEaD and S&AS will establish a schedule for the drafting and review of the Reflective Review and Action Plan. Notes from the Development Event should be included as part of the documentation for the Periodic Review Event.

Dates for the Review Event should be agreed with S&AS before further preparations continue.
6. Drafting the Reflective Review and Action Plan

The Reflective Review and Action Plan are the key documents for the Periodic Review process. They should be developed using the outcomes of the Development Event, the documentation compiled for the Preliminary meeting, other relevant information, and any strategic, financial or marketing work undertaken at Programme or School level which would impact on the delivery or recruitment to the programme/s. Staff from any partner institutions should be involved in drafting the relevant sections of the Reflective Review, and Action Plans should draw on the reflections within the Reflective Review. A template Reflective Review and Action Plan can be found in Appendix 3.

The Reflective Review is designed to:
- include evaluation and planned actions that reflect available educational quality information (NSS, Postgraduate Taught Experience Survey and Postgraduate Research Experience Survey results (as applicable), External Examiner/viva voce Chair reports, APEs, student feedback, Your Voice, progression/completion data and market information);
- reflect requirements of the discipline area including reference to existing, revised and new relevant subject benchmark statements and how they are reflected within the provision (http://www.qaa.ac.uk/assuringstandardsandquality/subject-guidance/pages/subject-benchmark-statements.aspx);
- be balanced between retrospective evaluation and forward looking strategies based on market needs;
- provide the vision and strategy for the programme’s development for the next 3-5 years, including identifying the programme’s strategic fit and viability during that period. This should draw on the University Vision and Strategy and the Education and Student Strategy, and the School Plan;
- evaluate the quality of the overall student learning experience;
- demonstrate the impact of educational enhancement activities undertaken in response to student feedback, external examiner feedback and programme-level management;
- articulate and embed the outcomes from the Development Event.

The Action Plan is designed to:
- support outcomes from the Development Event and Reflective Review;
- reflect ongoing actions from Annual Programme Evaluations;
- include detail of planned development of provision over a 3-5 year period;
- detail any programme amendments, new programmes to be developed or proposals for the removal of modules, as relevant.

The Reflective Review is accompanied by supporting documentation. This will usually consist of the documentation provided for the Preliminary meeting, plus the notes of the Development Event and any additional information requested by members of the Panel or agreed as part of the Development Event. Where agreed, supporting documentation might also include a short statement of endorsement from the Dean/Chair of Board of Studies to the proposals being made and/or a financial statement, marketing strategy and competitor analysis developed within the School if there is an impact on the delivery of the programme or on recruitment.

The Periodic Review submission should be considered and approved by the School Programme Approval and Review Committee (PARC). The PARC is responsible for ensuring the quality of the Reflective Review and Action Plan and the supporting documentation. Where revisions are required, these should be undertaken and signed off before the final submission of documentation to Student and Academic Services. The PARC must be scheduled sufficiently before the deadline for the submission of paperwork to the Panel to enable any necessary revisions to be made and signed off by the Chair of the PARC. Incomplete documentation will be rejected by the Chair and may delay the scheduling of the event.
6. **The External Panel Member**

External input is fundamental to periodic review. An External Panel member to support the assurance of the quality and standards of a programme, its relevance and alignment with national and sector benchmarks.

**Appointment Criteria**

An External Panel Member will:

- have sufficient authority and knowledge of the discipline area under discussion.
- normally be at least Senior Lecturer level or be a suitably qualified practitioner.
- not be appointed from a department in an institution where a member of the inviting department is serving as an External Examiner.
- not be a former member of staff (including visiting lecturer) or student unless a period of five years has lapsed since their departure from City.
- not be used as an External Examiner on the programme, or by the Department/School.
- not have any other conflict of interest so that independence and objectivity can be demonstrated.

External Panel Members will be paid a fee to reflect their involvement in the process and to enable them to dedicate their time to the proposal. There is a fixed fee and payment of reasonable expenses in line with City policy. Student and Academic Services will manage the payment of the fee and of any expenses, in liaison with the Finance Team.

External Panel Members must be able to demonstrate that they are eligible to work in the UK, and provide a copy of their passport or other documentation to Student and Academic Services. Following PARC approval of a proposed External Panel Member, Student and Academic Services will contact them External to confirm arrangements for Review and provide an expenses form.

7. **Meeting between the Chair, Secretary and Programme Director(s)**

It is good practice for the Chair, Secretary and Programme Director(s) to meet before the Periodic Review event to discuss any emerging themes for potential discussion. The Academic Partnership Coordinator may also be involved in this meeting if it is determined that the size and type of partnership provision would make their attendance useful. This meeting is designed to enable the Chair and Programme Director(s) to discuss any key issues that are likely to arise during the Periodic Review Event and to support the use of the Event as a developmental process for the programme team(s). The student panel member may also be invited to this meeting if the Chair and Programme Director(s) consider that this would be beneficial.

8. **Periodic Review Event**

The Periodic Review Event consists of a series of meetings between the Panel and relevant stakeholders, where the educational offer and future enhancement of the provision, as detailed in the Reflective Review and Action Plan are discussed. A proposed agenda can be found in the Quality Manual: [INSERT LINK]. The School should ensure that attendees to each meeting are carefully chosen to ensure each meeting covers the appropriate content.

Meetings include:

**Students and alumni**

A full range of students should be chosen with representation from each of the programmes under review. For example (and where appropriate) – representatives of different years of
study, home and overseas, distance learning or students from partner institutions. Alumni should also be present.

This meeting will explore student views of the provision, including teaching and assessment practices (or equivalent for research degrees), learning resources, student support and mechanisms for gaining student feedback on experiences. It will also consider student views on proposed changes or enhancements to provision, as well as other areas that students consider might require enhancement.

**Departmental/Discipline Staff**

This meeting should involve as many of the staff who teach on the programme as is practicably possible. These staff should have been involved in the preparation of the Reflective Review – this will include the Head of Department (or equivalent), Programme Directors and professional services staff. Where research degree provision is to be reviewed, Senior Tutors for Research and a selection of research supervisors are also likely to be involved.

This meeting will explore the views of the Programme Team and others directly associated with the provision, including approaches to teaching and assessment (or equivalent for research degree provision), any strengths/weaknesses/opportunities/threats, management and operation and the rationale for proposed actions and changes. It is likely that student views, including those gained from the student meeting, will be discussed with the Programme Team.

**Senior School Staff**

This meeting will include the Dean of School, Associate Dean (Education) and others as agreed at the Preliminary Meeting (e.g. Associate Dean (Research) for research degree provision).

This meeting will focus on the broader framework within which the provision sits, including resources, staff development, positioning, quality management and strategic fit. Issues that have arisen during the other meetings may also be discussed with the Senior Team, including those that have resource or other implications.

**Partnership Provision**

Partnership provision may be covered through one or more separate meetings with staff and/or students or may be covered in the above meetings with other provision. Where appropriate, relevant staff from partner institutions will be invited to participate.

Arrangements for meetings and the involvement of staff from partner institutions will be dependent on the type and size of the partnership provision. For example, articulation provision is likely to be covered in broader programme meetings without partner staff, whereas it is likely to be appropriate for joint partnership provision to be covered in separate meetings with staff from the partner present. The approach to be taken will be determined through discussions between Student & Academic Services, the Associate Dean (Education) and the School Quality Team.
9. Outcome of Periodic Review

At the end of the Periodic Review Event the Panel will meet to discuss the outcomes of the process.

The outcomes of the Periodic Review will include:

- confirmation of the quality and standards of the provision;
- endorsement of the Action Plan and timescales, possibly with the addition of actions and/or recommendations;
- commendations of strengths of the provision (those areas identified as good practice or strengths by the Review Panel);
- recommendations (observations which are normally set to encourage further enhancements to the programmes and may be directed towards the programme team, School or City);
- where quality and academic standards require, conditions, that must be met within a stated timeframe.

The Panel will then meet with the Programme Team, Senior School Staff and School Quality Team to confirm the outcomes.

In some circumstances, the Panel may decide that it is not able to confirm confidence in the academic standards and/or quality of the learning opportunities of the provision. In this circumstance, next steps will be agreed by the Chair and the Deputy President and Provost, with support from Student and Academic Services.

10. Post-Periodic Review

The Programme Team, Senior School Staff and School Quality Team will receive written details of the outcomes within 1 working week of the Periodic Review Event from the Panel Secretary including any commendations, recommendations and conditions.

The Programme Team, Senior School Staff and School Quality Team will then receive a full Periodic Review Report normally within 4 working weeks of the Periodic Review Event from the Panel Secretary. The Report provides a more detailed overview of the programme(s) and the rationales for any commendations, recommendations and conditions. The Review Report should be received by the School PARC, as well as the Educational Quality Committee.

Programme Teams are asked to provide a timely response to the report. The initial response should cover any conditions and recommendations, as well as any general comments on the report and the topics covered during the Periodic Review Event. Initial responses should be considered by the Programme Committee and approved by PARC. The response will also be received by the Educational Quality Committee. Where conditions are set, these should be met within the timescale established at the Periodic Review and approved by the Panel Chair. The Panel Chair will determine a deadline for any conditions to be met.

Where the Programme Team or Panel has identified amendments to the Programme, these should be implemented through the Programme Amendments Policy.

Periodic Review outcomes are monitored by the Programme Committee and by School PARCs. Actions to be undertaken should be incorporated into the next Annual Programme Evaluation (APE) and tracked through subsequent APEs. The APEs are monitored by Boards of Studies. The School Quality Team, LEaD and Student & Academic Services can provide support to enable successful delivery of the Action Plan.
Appendix 1 – Checklist of Tasks

Acronyms:
ADE – Associate Dean (Education)
LEaD – Learning Enhancement and Development
PD – Programme Director
QS – School Quality and Standards Lead
Secretary – Secretary to the Periodic Review Panel
SU – Students’ Union
S&AS – Student and Academic Services

Appendix 3a – Recommended contents list for Reflective Review and Action Plan (Taught/Mixed degree provision)

**Partnership Provision**

Partnership provision may be covered separately within the document or may appear with other programmes, provided that it is clearly identified within each section. Further guidance on matters to be covered for partnership provision is provided in each section below in *italics* and advice can also be sought from Student & Academic Services. Programme teams may also find it helpful to refer to the Collaborative Provision Typology which defines City’s current collaborative provision and its key characteristics [http://www.city.ac.uk/data/assets/word_doc/0004/126463/register_collaborative_provision.doc](http://www.city.ac.uk/data/assets/word_doc/0004/126463/register_collaborative_provision.doc) and areas covered at programme approval for each type of partnership arrangement [http://www.city.ac.uk/about/education/quality-manual/10-partnership-provision].

**Introduction and Background**

- Scope of the Review, including any partnership provision included
- Overview of the Programme
- Background to Department/Discipline, and requirements of the discipline area
- Staffing and staff:student ratios (including supervisor information and staff profile for research degree provision)
- Departmental vision and priorities (including reference to the REF and fit with institutional research strategy as appropriate)
- Programmes’ strategic fit and viability, including how this will continue to be ensured for the future
- Alignment to City’s Vision and Strategy – in particular consideration of employability, student progression/completion and student experience. Statistical information can be accessed at: [https://cityuni.sharepoint.com/sites/wo_Annual_Student_Survey/Pages/Dashboard.aspx](https://cityuni.sharepoint.com/sites/wo_Annual_Student_Survey/Pages/Dashboard.aspx)
- Nature of PSRB accreditation (if appropriate)
- *Nature of any partnership programme being included and its relationship with any of the other programmes covered by the Review (e.g. for articulation provision, the programmes at City to which students on the partnership programme progress)*
- **Background to the partnership and the partner institution.**
- **Staffing and staff:student ratios, including at the partner institution, as appropriate to the nature of the partnership. This is most relevant to joint programmes, dual awards, franchised programmes including franchised access/feeder programmes and off-site partnership delivery.**
- **Strategic fit and viability of the partnership provision, including how this will continue to be ensured for the future.**

**Educational offer/effectiveness of provision**

- Strengths of provision and approach
- Market position of provision in comparison to other institutions
- Currency of provision including relevant internal/external developments and changes since last Periodic Review (or in last five years)
- Educational aims and intended learning outcomes and how they contribute to the curriculum design, including the development of transferable skills among research students and others.
- Curriculum structure (which should align to the University’s Credit Framework)
• Teaching and learning practice and innovation, including research and practice informed teaching, and research supervisor practice.
• Evaluation of new approaches and developments as detailed in APEs
• Engagement with strategic learning and teaching/research initiatives, and implementation of policy and practice developments
• Student engagement with provision and relevant staff
• Research and professional activity and how this supports and enhances teaching and programme development
• Engagement with LEaD and other initiatives
• Any changes to PSRB requirements (if appropriate)
• Summary of planned actions
• Currency of partnerships, including the extent to which they continue to support the direction of the programmes and the quality of the educational offer and student experience
• All types of partnership provision expect access/feeder and articulation arrangements: the above areas should be covered in the context of the partnership and should reference the entire programme, including any aspects that are delivered at or by the partner institution. This may include, for example, teaching and learning practice and innovation at the partner institution and how practice between the institutions has been shared; implementation of policy and practice developments at City by the partner institution if appropriate; student engagement with staff at both City and the partner institution; engagement of staff at both institutions in the ongoing development of provision.
• Access/feeder provision and articulation provision: some areas above will not be relevant. For these types of provision, this section should focus on the relationship between the partnership provision and the City programmes to which students progress, e.g. changes since last Periodic Review to either the partnership provision or City programme and continuing alignment of provision, particularly where students are admitted to City with advanced standing.

Academic standards and student achievement

• Management and effectiveness of arrangements for ensuring academic standards including consideration of APEs
• Student admissions and progression (including retention, resits and completion/qualification rates)
• Destinations/alumni matters
• Review of assessment strategies and effectiveness in supporting student learning, good academic practice. Consideration of the balance and timing of assessment and inclusivity of assessment methods.
• Employer/PSRB/professional engagement and placement activities
• Staff development to support academic standards including peer review, appraisal/promotion, student feedback
• Implementation of academic policy and practice developments related to strengthening academic standards
• Evidence gained from External Examiner/viva voce Chair reports
• Summary of planned actions
• All types of partnership provision expect access/feeder and articulation arrangements: the above areas should be covered in the context of the partnership and should reference the entire programme, including any aspects that are delivered at or by the partner institution. This may include, for example, the roles of the partner institution and City in the arrangements for ensuring academic standards and the effectiveness of these; staff development undertaken by staff at the partner institution and joint activities between the institutions, e.g. peer review of City staff by the partner and vice versa; comparability of student progression and achievement with internal provision, particularly where the same programme is
delivered in more than one location, e.g. through a franchised arrangement or off-site partnership delivery.

- **Access/feeder and articulation provision:** some areas above will not be relevant. For these types of provision, this section may cover, for example, comparability of student progression and achievement for students entering via the partnership programmes with those admitted by City directly; ongoing effectiveness of arrangements for ensuring academic standards of the partnership programme where students are admitted to City with advanced standing through an articulation arrangement.

**Student support and resources**

- Academic support related to induction, progression and tutorials
- Learning support including skills development
- Learning resources and facilities, including learning environment and infrastructure
- Student community
- Consideration of feedback and issues raised by students through Staff Student Liaison Committees
- Preparation of students for future careers
- **All types of partnership provision except access/feeder and articulation arrangements:** the above areas should be covered in the context of the partnership and should reference the entire programme, including any aspects that are delivered at or by the partner institution. This may include, for example, academic support provided by each institution and comparability across the institutions; learning resources and facilities at each institution; access to City facilities and resources and the effectiveness of these arrangements where students are based solely at the partner institution.
- **Access/feeder and articulation provision:** this should cover the nature and effectiveness of student support for students entering City by these programmes. For example, for students admitted with advanced standing via articulation arrangements, whether bridging support is provided and integration of students with the wider student community.

**Other areas for partnership provision (as appropriate to the type of partnership and if not covered elsewhere):**

- Roles and responsibilities of each institution (e.g. for admissions, quality assurance, student support) and whether these are operating effectively
- Programme management and administration arrangements and their effectiveness
- Academic governance arrangements and their effectiveness
- Student representation and feedback arrangements and whether these are operating effectively

**Conclusion**

**Action Plan**

All actions should be cross-referenced to the relevant corresponding area in the reflective review proposing the action.

Actions should also consider the timing of proposed changes and how these relate to publication of information to students.

Appendix 3b – Recommended contents list for Reflective Review and Action Plan (Research)

**Partnership Provision**

Research degree provision offered in partnership is normally in the form of joint programmes leading to joint awards. Partnership provision may be covered separately within the document or may appear with other programmes, provided that it is clearly identified within each section. Further guidance on matters to be covered for partnership provision is provided in each section below in *italics* and advice can also be sought from Student & Academic Services.

**Introduction and Background**

- Scope of the Review, including any partnership provision included
- Background to Department/Discipline
- Staffing, supervisor profiles, staff:student ratios (for taught doctorates)
- Departmental and programmes’ vision and priorities, including fit with institutional research strategy and viability and how these will continue to be ensured for the future.
- REF strategy and approach
- *For partnership provision, the above areas should be covered in the context of the partnership and should make reference to the partner institution and/or the joint operation of the programme as appropriate.*

**Educational offer/effectiveness of provision**

- Strengths of provision and approach
- Market position of provision in comparison to other institutions
- Currency of provision including relevant internal/external developments and changes since last Periodic Review (or in last five years)
- Supervisor practice
- Transferable skills development
- Evaluation of new approaches and developments as detailed in APEs
- Engagement with strategic learning and teaching/research initiatives, and implementation of policy and practice developments
- Student engagement with provision and relevant staff
- Engagement with LEaD and other initiatives
- Summary of planned actions
- *For partnership provision, the above areas should be covered in the context of the partnership and should make reference to the partner institution and/or the joint operation of the programme as appropriate.*

**Academic standards and student achievement**

- Management and effectiveness of arrangements for ensuring academic standards including consideration of APEs
- Student admissions and progression (including qualification rates)
- Goals, standards and assessment matters
- Research degree progress and monitoring, including annual student progress reviews
- Destinations/alumni matters
- Employer/PSRB/professional engagement and placement activities
Staff development to support academic standards including peer review, appraisal/promotion, student feedback
Implementation of academic policy and practice developments related to strengthening academic standards
Evidence gained from viva voce Chair reports
For partnership provision, the above areas should be covered in the context of the partnership and should make reference to the partner institution and the joint operation of the programme as appropriate.

Student support and resources

- Academic support related to induction, progression and tutorials
- Learning support including skills development
- Learning resources and facilities, including learning environment and infrastructure
- Student community
- Preparation of students for future careers
- Intellectual climate
For partnership provision, the above areas should be covered in the context of the partnership and should make reference to the partner institution and the joint operation of the programme as appropriate.

Other areas for partnership provision (as appropriate to the type of partnership and if not covered elsewhere):
- Roles and responsibilities of each institution (e.g. for admissions, quality assurance, student support) and whether these are operating effectively
- Programme management and administration arrangements and their effectiveness
- Academic governance arrangements and their effectiveness
- Student representation and feedback arrangements and whether these are operating effectively

Conclusion

Action Plan

All actions should be cross-referenced to the relevant corresponding area in the reflective review proposing the action. Actions should also consider the timing of proposed changes and how these relate to publication of information to students.
