Statement regarding the use of the term “Parts”

There are three Practice Assessment Documents in total, which incorporate the range of Future Nurse Standards of proficiency (NMC 2018). “Parts” in this context is used to represent the range of outcomes to be achieved by students at different levels. These parts may differ from the parts of the education programme that will be defined locally by each university provider.

Welcome to the Practice Assessment Document (PAD)

Student responsibilities

This Practice Assessment Document is designed to support and guide you towards successfully achieving the criteria set out in the *Future nurse: Standards of proficiency for registered nurses and Standards for education and training* (NMC 2018).

The PAD makes up a significant part of your overall programme assessment. It will need to be processed through formal University systems. Continuous assessment is an integral aspect of assessment in practice and you are expected to show evidence of consistent achievement. You should engage positively in all learning opportunities, take responsibility for your own learning and know how to access support. You will work with and receive written feedback from a range of staff including Practice Supervisors and Practice Assessors and you are required to reflect on your learning.

You are responsible for raising concerns with a nominated person in the practice setting in a timely manner. You should also alert staff to any reasonable adjustments that may be required to support your learning.

You should ensure you are familiar with your university assessment and submission processes for this document and contact the academic representative from your university, or refer to your university's intranet if you require support or advice on specific university procedures.

The Ongoing Achievement Record (OAR) is a separate document that summarises your achievements in each placement and with the main document provides a comprehensive record of your professional development and performance in practice.

You are responsible for the safekeeping and maintenance of the PAD. It should be available to your Practice Supervisor, Practice Assessor and Academic Assessor at all times when you are in placement together with the OAR. Alterations should be made in this document by crossing through with one line, with a signature and date.

You will have access to confidential information when in practice placements. The PAD should not contain any patient/service user/carer identifiable information. Contents must not be disclosed to any unauthorised person or removed, photocopied or used outside the placement or university.

People must be offered the opportunity to give and if required withdraw their informed consent to student participation in their care and staff in practice will provide guidance as required. Before approaching any patient/service user/carer for feedback you must discuss with your Practice Supervisor/Practice Assessor who will facilitate consent.

Practice Supervisor responsibilities (Registered nurse/midwife or other registered health/social care professional)

In many practice areas the student will be supported by a number of Practice Supervisors. Some areas may adopt a team based approach due to the nature of the experience.

As a Practice Supervisor you have an important role in supporting and guiding the student through their learning experience to ensure safe and effective learning. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. It is your responsibility to contribute to the student's assessment through the recording of regular feedback on their progress towards, and achievement of their proficiencies. Specific feedback must be provided to the Practice Assessor on the student's progress.

Supervision in other placement areas (i.e. those areas where there are no health/social care registrants)

A range of staff can support student learning and have a vital role in student learning and development though may not be contributing formally to assessment of proficiencies.

However, these staff members are encouraged to support learning and can provide valuable student feedback within the PAD on the *Record of communication/additional feedback pages*.

Practice Assessor responsibilities (Registered Nurse)

As a Practice Assessor you have a key role in assessing and confirming the student's proficiency providing assurance of student achievements and competence. This includes facilitating learning opportunities including any reasonable adjustments the student may need to get maximum benefit from the placement. You will observe the student, conduct and record student assessments informed by student reflections, feedback from Practice Supervisors and other relevant people to confirm achievement. You will liaise with the Academic Assessor scheduling communication at relevant points.

Practice Assessors must have appropriate equivalent experience in the student's field of practice.

There are numerous elements requiring assessment in practice. One or more Practice Supervisors can contribute to the assessment of some of the proficiencies in discussion with you, but they must be working in their scope of practice.

When assessing the student, you should take into account sources of evidence that encompass knowledge, skills, attitudes and the views of those receiving care. Comments should acknowledge those exceptional students who are exceeding expectations for their stage in practice or who have particularly commendable attitudes, behaviours, knowledge or skills.

If the student is not meeting the required standards this should be highlighted as a development need. If there is a cause for concern or a fitness for practice issue that requires prompt action, an Action Plan should be instigated to address specific needs or concerns within a specified timeframe. In the event of this, seek guidance from the Academic Assessor and/or senior practice representative.

Academic Assessor responsibilities

Academic Assessors are Registered Nurses and are nominated for each part of the educational programme. The same Academic Assessor cannot contribute to the student assessment in consecutive parts. The Academic Assessor will work in partnership with the Practice Assessor to evaluate and recommend the student for progression for each part of the educational programme. The Academic Assessor will enable scheduled communication and collaboration with the Practice Assessor and this communication can take a variety of forms.

All communications/ additional feedback (not already recorded in the scheduled interviews) from the Practice Supervisors, Practice Assessor and Academic Assessor and other staff members needs to be recorded on the relevant pages in the PAD.

Guidance for using the PAD to facilitate learning and assessment in practice

Assessment criteria in the PAD are based on the NMC *Future nurse: Standards of proficiency for registered nurses* and *Standards for education and training* (NMC 2018). The outcome statements have been designed by the NMC to apply across all four fields of nursing practice and all care settings (NMC 2018). *Students must be able to demonstrate a greater depth of knowledge and the additional more advanced skills required to meet the specific care needs of people in their chosen fields of nursing practice (NMC, 2018, p6). This Practice Assessment Document can be used in any field of practice.*

Components of Assessment and Feedback (see individual university guidance/regulations)

Professional Values: Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code (NMC 2018). All must be achieved *by the end of each placement*.

Proficiencies: These reflect aspects of the 7 Platforms, communication and relationship management skills and nursing procedures (NMC 2018). These can be assessed in a range of placements, but must be achieved at least once *by the end of the Part*.

Episode of Care: This holistic assessment(s) facilitates and demonstrates the student's progress and must be achieved *by the end of the Part*.

Medicines Management: There is one assessment included in each part and each must be achieved *by the end of the Part*.

Patient/Service User/Carer Feedback Form: Feedback will be sought in relation to how the student cared for the person receiving care. This is not formally assessed, but will contribute to overall student feedback.

Recording Additional Experiences and Feedback: There are additional pages for the student to record reflections on their own learning and pages to record communication and additional feedback from all those supporting learning and assessment.

Ongoing Achievement Record: The OAR summarises overall achievements and provides a comprehensive record of student development and overall performance.

Further information / guidance is included in the university specific pages (overleaf) and in the *Practice Assessment Document Guide*

Guidelines for Practice Assessment

This section outlines the process for assessment and progression for students in City, University of London nursing programmes.

Placement

Each 'placement' is an organised practice experience which enables the student to observe, participate and practise their skills in a variety of real-life contexts. The experience enables the student to relate theory to the practice of caring and enables their skills and knowledge to develop through supervised practice. In the main, adult nursing student's practice experience will take place within a distinct geographical locality. For mental health nursing students, the student will experience a range of placements across providers both within East London Foundation Trust and independent and voluntary service providers. Student placements will encompass care delivered in hospital, at home, and close to home for the patient or service user. These approaches are organised so that the student works consistently within an established team of health and social care professionals. Student practice experience will take place in a variety of settings such as specialist units, hospital wards and primary care settings such as Health Centres and service user's homes. For children's nursing students the student will experience a range of placements which span multiple Trusts and placement providers. These will include nurseries, special schools, health visiting as well as wards and primary care.

There will be opportunities across a range of practice placement experiences to assess achievement of the NMC Proficiencies and Professional Values in Practice in order to achieve the completion of practice learning for entry to the NMC Register on successful completion of the Programme.

It is expected that a student passes each placement. In the event of a failed placement a student may be offered the opportunity for an additional placement. Refer to the flow chart *Process to Address Issues of Competence / Professional Conduct in Practice* for further information.

Short Placements

If the student's placement is less than 4 weeks in length, there may be occasions when it is not necessary to complete an interim interview. However, if there is any concern about student practice performance, a mid-point interview will be required.

Absence

If a student is unable to attend placement they must inform the clinical area of this directly, text the university sick line on 07860018968 stating name, student ID, cohort and dates of sickness / absence. Any student absent for more than one week must also inform the Programme Director/Practice Lead via email. Failure to comply with this requirement will result in this being documented as unauthorised absence.

Assessment of Proficiencies

The four opportunities for assessment of proficiencies in the PAD could be undertaken during the Student's Engaging in Practice Modules as appropriate for the relevant Stage of the programme (Stages 1, 2 and 3). The student **ONLY** needs to achieve each proficiency **ONCE** across the Stages (1, 2 and 3) and **NOT** in every practice placement period or practice learning experience unless there is a change in the student's performance.

If a proficiency is assessed as achieved early in a Stage (1, 2, and 3), it is expected that the student will maintain that level of competence.

Assessment of Professional Values in Practice

Assessment of Professional Values in Practice will be completed in each placement at mid-point and end-point in each Practice Assessment Document.

Practice Assessment – Episode(s) of Care

The practice assessment – episode(s) of care will be completed **ONCE** in each PAD for university Stages (1, 2 and 3). Prior to the **summative** assessment the student needs to agree with their Practice Assessor a **formative** attempt with feedback.

Submission

At the **END** of each Stage of the Programme (1, 2 and 3), the student will submit the PAD, using University procedures, with all the Proficiencies, Professional Values in Practice, and Episode of Care(s) achieved in order to Progress from university Stage 1, 2 or for completion. It is an university requirement that to pass each stage of the programme, the student must successfully complete both the theoretical and practice elements of the programme by the end of each stage. The programme is therefore comprised of three sequential stages. Students are required to complete and pass each stage in order to be eligible to continue into the next stage of the programme. If a student has not completed all outstanding assessments, please note the following:

If by the end of the Stage (1 or 2 or 3) the Proficiencies, Episode of Care and Professional Values in Practice have **NOT BEEN ACHIEVED** then the student will have failed practice. This will be reported to the Assessment Board who will make recommendations including the ratification of extenuating circumstances. Recommendations could be:

- 1) If a progression break is required due to university requirements between stage 1 and stage 2 or between stage 2 and stage 3.
- 2) Withdrawal from the programme.
- 3) A lower award may be recommended, without eligibility to register with the NMC.

If Extenuating Circumstances are accepted, completion of the PAD would need to be successfully completed as advised by the Assessment Board (without impact on academic commitments). In the event of a progression break or discontinuation of study the relevant funding bodies, e.g. Student Finance England will be notified which will affect the payment of student loans. For further information please consult the Programme Handbook.

Raising and escalating concerns in clinical practice

Nursing and midwifery students

Your responsibility

As a student, you have a professional responsibility to report any concerns you have relating to patient care and safety, clinical practice or learning support.

Who can you talk to?

If you have any concerns it is important that you raise them whilst you are in practice so that any issue can be dealt with effectively. Don't keep it to yourself. You must tell someone.

For example, you can speak to your Practice Assessor, Practice Supervisor, Ward Manager, Lead Midwife for Education (LME), Practice Education Facilitator (PEF), Clinical Practice Facilitator (CPF), Academic Assessor, Practice Education Lead, Personal Tutor or Programme Director

**The NMC requires you to tell someone.
City and your Trust will support you.**

Criteria for Assessment in Practice

Overall Framework Parts 1 – 3 to be achieved by the end of the part

The decision on the level of supervision provided for students should be based on the needs of the individual student. The level of supervision can decrease with the student's increasing proficiency and confidence. (NMC, 2018, p 5)

Part 1: Guided participation in Care

'Achieved' must be obtained in all three criteria by the student

Achieved	Knowledge	Skills	Attitude and values
YES	Is able to identify the appropriate knowledge base required to deliver safe, person centred care under some guidance.	In commonly encountered situations is able to utilise appropriate skills in the delivery of person centred care with some guidance.	Is able to demonstrate a professional attitude in delivering person centred care. Demonstrates positive engagement with own learning.
NO	Is not able to demonstrate an adequate knowledge base and has significant gaps in understanding, leading to poor practice.	Under direct supervision is not able to demonstrate safe practice in delivering care despite repeated guidance and prompting in familiar tasks.	Inconsistent professional attitude towards others and lacks self-awareness. Is not asking questions nor engaging with own learning needs.

Professional Values in Practice (Part 1)

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

Professional Values in Practice (Part 1)

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

Yes = Achieved, No = Not Achieved (Refer to Criteria for Assessment in Practice)

Professional Values in Practice (Part 1)

Students are required to demonstrate high standards of professional conduct at all times during their placements. Students should work within ethical and legal frameworks, and be able to articulate the underpinning values of The Code (NMC, 2018). Professional Values reflect a number of proficiency statements and are captured under the 4 sections of The Code.

The Practice Assessor has responsibility for assessing Professional Values though the Mid-Point review can be completed by a Practice Supervisor in liaison with the Practice Assessor.

Assessment of Proficiencies

Incorporating Platforms 1 – 7

Annexe A: Communication and relationship management skills

Annexe B: Nursing procedures

These proficiencies ***“apply to all registered nurses, but the level of expertise and knowledge required will vary depending on the chosen field(s) of practice”***. (NMC, *Future Nurse*, 2018, p22, 26)

Assessment of Proficiencies are undertaken across the Part. These can be assessed in a range of placements but need to be assessed as Achieved (YES) at least once by the end of the Part. If a proficiency is assessed as Achieved (YES) early in the Part it is expected that the student maintains that level of competence and can be re-assessed in subsequent placements at the Practice Assessor’s discretion.

The Grade Descriptors are ‘Yes’ (this proficiency has been achieved), ‘No’ (this proficiency has not been achieved). Refer to Criteria for Assessment in Practice for further details.

Some of the proficiencies may be met within simulated learning as per the individual university’s policy.

Part 1 Assessment of Performance: The individual completing the assessment should draw on a range of observed experiences in which the student demonstrates the required knowledge, skills, attitudes and values to achieve high quality person-centred/family-centred care, ensuring all care is underpinned by effective communication skills.

Participates in assessing needs and planning person-centred care

Part 1 Episode of Care - Formative (to support development & gain feedback)

This assessment must be completed by the end of Part 1.

The Part 1 summative episode of care (final) assessment will be undertaken by the Practice Assessor.

Guidelines

The practice supervisor/assessor and student will identify an appropriate episode of direct care involving meeting the needs of a person/family receiving care. Professionalism underpins all aspects of the student's performance.

The aim of this assessment is to demonstrate the student's progression in the following 5 platforms within the *Future Nurse: Standards of proficiency (including skills from annexe A and B)* (NMC 2018) **in the context of their intended field(s) of practice:**

- Promoting health and preventing ill health
- Assessing needs and planning care
- Providing and evaluating care
- Improving safety and quality of care
- Coordinating care

Effective communication and relationship management skills underpin all aspects of care. (Annexe A)

Students are required to use appropriate approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying understanding of mental capacity and health legislation as appropriate.

Learning outcomes

The student is able to:

1. Work in partnership with the person receiving care, their families and carers (where appropriate), can undertake an accurate assessment and provide evidence based, compassionate and safe nursing care.
2. Demonstrate understanding and can apply the relevant knowledge and skills to meet the individual's needs relating to dignity, comfort, hygiene and mobility.
3. Communicate effectively utilising appropriate verbal and non-verbal skills in the delivery of person centred care decisions, taking into consideration the use of personal communication aids as appropriate.
4. Identify the impact of lifestyle choices on the individual's mental and physical health and wellbeing and demonstrates the principles of health promotion and preventing ill health.
5. Demonstrate that they have maintained professional values and demonstrates knowledge of safety and safeguarding for the person receiving care and the carers and/or family.

Student reflection on an episode of care

Within your reflection, describe the episode of care and how you assessed, delivered and evaluated care.

What did you do well?

What would you have done differently?

Practice Assessor feedback		
Based on the student's reflection, your observation and discussion of the episode of care, please assess and comment on the following: Yes = Achieved, No = Not Achieved (Refer to Criteria for Assessment in Practice)		
Standard of proficiency	Yes/No	Comments
Assessing needs and planning care Takes an accurate history and undertakes a person centred assessment in order to plan effective care.		
Providing and evaluating care Provides person-centred evidence based care in managing dignity, comfort, hygiene and mobility needs of the individual.		
Promoting health and preventing ill health Applies the principles of health promotion and improvement as appropriate when caring for the individual and their families.		
Improving safety and quality of care Undertakes relevant risk assessments (e.g. falls, skin integrity, mental capacity) that may be required and demonstrates an understanding of the difference between risk aversion and risk management.		
Coordinating Care Utilises a range of communication skills to effectively engage with the person receiving care, their family/carers and members of the multidisciplinary team in the provision and evaluation of care.

Part 1 Episode of Care - Summative

This assessment must be completed by the end of Part 1 by the student's practice assessor during a specific episode of care.

Guidelines

The practice assessor and student will identify an appropriate episode of direct care involving meeting the needs of a person/family receiving care. Professionalism underpins all aspects of the student's performance.

The aim of this assessment is to demonstrate the student's progression in the following 5 platforms within the *Future Nurse: Standards of proficiency (including skills from annexe A and B)* (NMC 2018) **in the context of their intended field(s) of practice:**

- Promoting health and preventing ill health
- Assessing needs and planning care
- Providing and evaluating care
- Improving safety and quality of care
- Coordinating care

Effective communication and relationship management skills underpin all aspects of care. (Annexe A)

Students are required to use appropriate approaches and techniques considering the person's motivation, capacity and need for reasonable adjustment applying understanding of mental capacity and health legislation as appropriate.

Learning outcomes

The student is able to:

1. Work in partnership with the person receiving care, their families and carers (where appropriate), can undertake an accurate assessment and provide evidence based, compassionate and safe nursing care.
2. Demonstrate understanding and can apply the relevant knowledge and skills to meet the individual's needs relating to dignity, comfort, hygiene and mobility.
3. Communicate effectively utilising appropriate verbal and non-verbal skills in the delivery of person centred care decisions, taking into consideration the use of personal communication aids as appropriate.
4. Identify the impact of lifestyle choices on the individual's mental and physical health and wellbeing and demonstrates the principles of health promotion and preventing ill health.
5. Demonstrate that they have maintained professional values and demonstrates knowledge of safety and safeguarding for the person receiving care and the carers and/or family.

Student reflection on an episode of care

Within your reflection, describe the episode of care and how you assessed, delivered and evaluated care.

What did you do well?

What would you have done differently?

Practice Assessor feedback		
Based on the student's reflection, your observation and discussion of the episode of care, please assess and comment on the following: Yes = Achieved, No = Not Achieved (Refer to Criteria for Assessment in Practice)		
Standard of proficiency	Yes/No	Comments
Assessing needs and planning care Takes an accurate history and undertakes a person centred assessment in order to plan effective care.		
Providing and evaluating care Provides person-centred evidence based care in managing dignity, comfort, hygiene and mobility needs of the individual.		
Promoting health and preventing ill health Applies the principles of health promotion and improvement as appropriate when caring for the individual and their families.		
Improving safety and quality of care Undertakes relevant risk assessments (e.g. falls, skin integrity, mental capacity) that may be required and demonstrates an understanding of the difference between risk aversion and risk management.		
Coordinating Care Utilises a range of communication skills to effectively engage with the person receiving care, their family/carers and members of the multidisciplinary team in the provision and evaluation of care.		
If any of the Standards are 'Not Achieved' this will require a re-assessment and the Academic Assessor must be informed

Part 1 Medicines Management

This assessment must be completed by the end of Part 1 where the student safely administers medicines to a group of patients/service users or a caseload of patients/service users in any care setting.

During Part 1 the student should be developing their knowledge and skills in relation to the safe administration of medicines. This assessment should normally be undertaken with one or more patients/service users. **Professionalism underpins all aspects of the student's performance.**

The student must be allowed a number of practice opportunities to administer medicines under supervision prior to this assessment.

The student must work within the legal and ethical frameworks that underpin safe and effective medicines management and work within national and local policies.

Regulatory requirements: *Future Nurse: Standards of Proficiency for Registered Nurses* (NMC 2018), *The Code* (NMC 2018), *A Competency Framework for all Prescribers* (The Royal Pharmaceutical Society 2016)

The aim of this assessment is to ensure students can perform safe administration of medicines under direct supervision.

Learning outcomes
