Message from Bill Thompson

Dear Student,

I am writing to inform you of a new sports facility being opened at City University London over the weekend of 22nd-24th February. This will be followed by a ‘Grand Opening’ event at 5pm on the Saturday, 23rd February. The new facility will be located on the corner of Sebastian Square and City Hall, and within your own and other halls of residence. It will be open all day and will provide you with the opportunity to try out a wide range of different activities, including those which you may not have tried before.

The facility is designed to help you develop your physical and mental abilities, as well as your social skills. It is also a great way to meet new people and make friends. There will be a variety of activities available, including sports, exercise classes, and other leisure activities.

Please feel free to come along and try out some of the activities on offer. We look forward to seeing you there!

Yours sincerely,

Bill Thompson
