Clearing entry requirements:
Clearing entry requirements for BSc (Hons) Health and Social Care have not yet been confirmed, please check our website when clearing opens for confirmation of clearing tariff.

GCSE: A minimum of five passes grade 4 (C) at GCSE, including English and Mathematics

About the course:
The health and social care landscape is undergoing significant and rapid change. This innovative degree is designed to help students respond to the many current and future challenges facing the health and social care system.

The course adopts a multidisciplinary and evidence-based approach, drawing on a wide range of insights and research from medicine, sociology, psychology, economics, philosophy and other disciplines.

Students are encouraged to think critically about how factors such as society, the environment and geography affect our experience of health and illness, and of health and social care services. Students will also gain an understanding of different approaches to the organisation and financing of health and social care services and how they relate to wider social and political structures.

The course combines academic rigour with the development of the practical and transferable skills students need to pursue a wide variety of careers within health and social care.

Key course details:

Duration:
3 year, full time course

Location:
Taught on campus at City, University of London

Fees:
UK/EU
Full-time: £9,250 for the first year of study (2018/19 and following years fees to be confirmed)

International opportunities:
The University’s Exchange and Study Abroad programmes are a way for students to broaden their education at an overseas university as part of their degree. The School of Health Sciences has Erasmus Exchange Programme agreements with a number of universities within the EU and is currently establishing partnerships in the United States and Australia. Students are given the opportunity to study abroad for a term. Find out more

Why chose to study health and social care at City?

- Specifically designed to help students respond to the current and future challenges facing health and social care
- Adopts a multidisciplinary and evidence-based approach throughout
- Central London location

Careers:
The course places a high value on career planning, and students’ career development is emphasised throughout the degree. The course is specifically designed to provide students with the knowledge and skills needed to prepare them for a wide variety of careers, not only within the public sector, such as the NHS, but also the not-for-profit (voluntary) and private/independent care sectors.

Such roles include the provision of health and social care (working with vulnerable adults, children and the elderly); management and administration positions; public health and community development-related roles, and policy and research-related work, including lobbying and advocacy.
