Guide to Viewing Timetables for Staff

Timetables can be accessed via MyTimetable (for personalised or self-build timetables) or online via the timetabling web pages.

1. **MyTimetable – to access personalised timetables**

Staff on programmes that are part of the Personalised Timetables project from September 2020 will be able to view & subscribe to their own timetables just by logging into MyTimetable:

https://mytimetable.city.ac.uk/

2. **MyTimetable – to access self-build timetables**

Staff on all programmes can use the same link to access the Self-Build Timetable function. Companion notes may be accessed [here](#).

3. **Online via the Timetabling web pages**

All activities taking place in centrally managed locations can be viewed using the online timetable at https://sws.city.ac.uk/. This can also be accessed via the City intranet (you will need a City login) or from the external City website (no login required). You may need to enable pop-ups to view the timetable.

As details can change at late notice (i.e. cancellations due to sickness) this site should be checked regularly during the term.

There are several ways of looking at the timetable. For example, you may choose to look at a member of staff’s timetable, several modules at once or a whole programme’s timetable. You can also look at what is scheduled to take place in a particular location for a selected timeframe. Below illustrates how to access the timetable via the staff, module and programme routes.

**Searching by Staff Member**

Staff can view their timetable as a whole rather than for each module. It is usually better to view one week at a time in a *Grid Timetable* if you teach a more varied timetable.

---

**Welcome to City University London Online Timetables**

These pages allow you to view your DRAFT timetables for the 2020-21 Academic Year. You can use the facility to search by Student Set if you have been allocated one for your Programme. You may also look at what is scheduled to take place in a particular location for a selected timeframe. Below illustrates how to access the timetable via the staff, module and programme routes.

All requests to change timetables and/or queries on timetables must be directed to the School T
Searching by Module
You can search for a Module by typing part of the title into the search box.

Weeks/Teaching Pattern: It is easier to view the specific week, but for an overview select the term your module is in.

<table>
<thead>
<tr>
<th>Week(s)</th>
<th>Autumn Term (standard) ranging w/c 28 Sep - w/c 7 Dec 2020</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Autumn Term (non-standard) ranging w/c 24 Aug - w/c 14 Dec 2020</td>
</tr>
<tr>
<td></td>
<td>MSc Business School Autumn Term 1: w/c 28 Sept - w/c 7 Dec 2020</td>
</tr>
</tbody>
</table>

Some programmes run out of the ‘standard’ term dates, so there is a ‘standard’ and ‘non-standard’ option for each term.

When you click View Timetable you will see the details of the module including time of the day, room and lecturer.

Searching by Programme of Study
You can search for more than one module at a time; searching by Programme will bring up all the possible modules available to a specific Programme of Study. This may provide too much information at once as many programmes have multiple options.
Timetable Style and ‘Type of Report’ Options

There are many different ways of looking at a timetable. For a standard module running weekly at the same time/day we suggest looking at ‘Module List (By Day)’ or ‘Grid Timetable’. For a more complicated timetable it is worth finding a style that works for your needs.

The Business School, SMCSE’s Computer Sciences and SASS’s Culture & Creative Industries can view and export their programmes’ timetables on an Excel Calendar. Culture & Creative Industries can also see their module timetables in this format.

This only works using Internet Explorer and is for the current term.

- Module List (By Day)
- Module List (By Weeks)
- Grid Timetable
- Event Sheet (Without Student Sets)
- Event Sheet (With Student Sets)
