### **PATTERN AND STRUCTURE OF ASSESSMENT**

- (a) The purpose of assessment is to enable the student to demonstrate that he or she has fulfilled the Learning Outcomes of a Module and has achieved the required standard for the Award. To achieve this a wide range of types of assessment may be employed appropriate to the subject area. The overall diet of assessment shall be defined in the Programme Scheme and this shall ensure an appropriate volume of assessment for the level of Award.
  
- (b) All learning outcomes will be assessed and the prescribed assessment for all postgraduate programmes shall be specified in the Programme Scheme approved by Senate.
  
- (c) Requirements for the overall Assessment for Master's Degree programmes are:
  - (i) That a candidate shall be assessed by such methods as are set out in the Module Specifications, including dissertation or project and oral examination where this is required by the Programme Scheme.
  - (ii) Unless otherwise specified in the Programme Scheme approved by Senate, written assessment, dissertation or project and oral examination shall be in English.
  
- (c) The schedule of assessment and meetings of Boards of Examiners shall be specified in the Programme Scheme.

No distinction is made between types of assessment. The range of assessment methods used should be appropriate to the subject area. All assessment is intended to demonstrate that the Learning Outcomes for a Module or Programme have been achieved and should be applied with due rigour, reasonable steps having been taken to ensure that the work assessed is that of the candidate.

Those responsible for the design and approval of programmes should consider appropriate assessment loading.

All Master's degree programmes should normally include the option of a major project/dissertation element in the assessment

Though there are no 'Programme Stages' in Postgraduate level programmes, other progression points may be identified in the Programme Specification. These may be particularly useful for part-time study.
