MSc Civil Engineering online event chat

This online chat session is for students interested in studying our MSc Civil Engineering Structures or MSc Civil Engineering Structures (Nuclear Power Plants) courses. The session will be run by academic staff, giving you the opportunity to ask questions about your chosen course at City, University of London. As this is a typed chat group session, you will be able to see the answers to questions asked by other applicants.

Hi! My name is Panagiota Mergos. I am the programme director of Civil Engineering Structures MSc at City. Looking forward to answering your questions!

Hello. I am Prof Ayoub, the Programme Director of the MSc in Civil Engineering Structures (Nuclear Power Plants). Welcome to City! I am happy to answer all your questions.

Hi! My name is Panagiota Mergos. I am the programme director of Civil Engineering Structures MSc at City. Looking forward to answering your questions!

Hello, my name is Shanice and I work in marketing here at City :)

Thank you for joining us for today’s CityChat session. This session is for students interested in studying our MSc Civil Engineering Structures and MSc Civil Engineering Structures (Nuclear Power Plants) courses. This session runs from 16:30 – 17:30 (GMT). This is an open chat session for you to ask any questions you have regarding these courses and life at City, University of London. During the session, we may also share videos, polls or documents related to your course.

To ask a question, please type it in the chat box. Your question will not post straight away - it will be sent to our Moderators who will type an answer back. Once their answer is complete, it will be published with your question. Please make sure you say which course you have applied to when you post your question. You are also welcome to post just saying hi and introducing yourself!

City, University of London: School of Mathematics, Computer Science and Engineering tour

Hi! I would like to know what fields are there for masters in civil engineering?
These two masters are mostly for structural engineering, i.e. design and construction of structural facilities. Most of our students go and work in structural design firms or on construction sites.

Hi I would like to know what fields are there for masters in civil engineering?

We have also another master in construction management and one in design of temporary work structures.

Hi, I’m I’ll be working full time in London later this year as a structural engineering. I just wanted to ask what hours per week will I be attending? Is there a day release option?

Hello. There is flexibility to make your own schedule of the modules you will take. For the first year, you could come only on Mondays for example. But this depends also on your availability.

My story in 3 objects: Jorge Riera, MSc in Construction Management at City

https://youtu.be/H_04vUJjdgw

Hi Sir what is the basic eligibility criteria for the masters in construction management because that seems to be of my interest. And how far is the job scope after this degree?

To be admitted, you generally need to have a BSc in Civil Eng with 2.2 or equivalent, and an IELTS score of 6.5 for international students.

Hi Sir Ashraf, what is the basic eligibility criteria for the masters in construction management because that seems to be of my interest. And how far is the job scope after this degree?

Most of our students in the construction management course have no problems finding jobs in the sector, many working in some of the biggest construction firms.

Sir, are there any scholarships that I could apply for?

We do have a £2000 scholarship for new students, but you need to apply early as it is competitive.
Sir, are there any scholarships that I could apply for?

Hi, some of the scholarships are also listed on the course page: https://www.city.ac.uk/study/courses/postgraduate/civil-engineering-structures

Hope that helps!

Civil Engineering Structures MSc

With City's Civil Engineering Structures MSc degree course you can prepare yourself to create the structures that will shape tomorrow's world.

Thank you shanice!

You're welcome :)

Meet Our International Students

Shanice, could you please briefly guide me through the application process and any deadlines that should be of concern.

You can apply via the course page and will be guided through the process. As well as your degree certificate, transcript, photo ID/passport and IELTS 6.5, you will need to write a persuasive personal statement as to why you want to do the course. There are no strict deadlines but we always advise applying sooner rather than later.

Hi, I'm going to be working full time in London later this year as a structural engineering. I just wanted to ask what hours per week will I be attending? Is there a day release option?

You can email me at panagiotis.mergos.1@city.ac.uk or our course officer Ms Savita Afonso (Savita.Afonso@city.ac.uk) for more information on part-time students schedules.
Thankyou again Shanice.

No problem, I hope it was helpful.
