Studying BEng/MEng Engineering courses at City

This Online Chat session is for prospective students interested in studying our BEng and MEng Aeronautical Engineering, Biomedical Engineering, Civil Engineering, Electrical and Electronic Engineering, Engineering and Mechanical Engineering courses. The session will be run by current students, giving you the opportunity to ask questions about your chosen course and life at City, University of London. As this is a typed chat group session, you will be able to see the answers to questions asked by other applicants.

Thank you for joining us for today’s Online Chat session. This session is for applicants to our BEng and MEng Aeronautical Engineering, Biomedical Engineering, Civil Engineering, Electrical and Electronic Engineering, Engineering and Mechanical Engineering courses. This session runs from 16:00 - 17:00 (GMT). This is an open chat session for you to ask any questions you have regarding these courses and life at City, University of London. During the session we may also share videos, polls or documents relating to you course.

To ask a question, please type it in the chat box. Your question will not post straight away - it will be sent to our Moderators who will type an answer back. Once their answer is complete, it will be published with you question. Please be patient as it might take some time for us to respond to your question.

Hi everyone, I'm X and I am currently in my final year of the BEng Civil Engineering course with placement year. Let me know if you have any questions! :)

Good afternoon everyone! My name is X and I am a third year MEng Aeronautical Engineering student at City! I can answer questions related to my course but also the general student life here!

Design led Engineering at City, University of London

Engineering has been taught at City, University of London, for over 100 years. Our 7 engineering undergraduate programmes have particular emphasis on creative design. Four leading structural engineers share their thoughts on design innovation as we lead you through an inspiring historical journey through engineering.

Hi my name is X, I'm planning to come over and study mechanical engineering, next year is city good for me
Awesome! Did you know that we have a common first year for all Engineering disciplines?!

No, give me more details

Hi X, can you be a bit more specific in terms of what you would like to know about the course please?

I like to know are well is engineering in city

In my case, I love the Engineering course at City because of the good balance between the theoretical and practical knowledge the lectures provide you.

Studying in city is great for an international students

There is a wide international community here at City! :) We also have many societies that reflect that!!

Studying in city is great for an international students

It's amazing! City is located in the centre of London and as a consequence it is multicultural and there's students from all over the world :)

So what I the hardships

In my first year I struggled a little bit with my English and to follow lectures but since there were so many other students in a similar situation, it becomes easier and is a good excuse to join societies and fully immerse in the British culture.

I'm not that good in English, can I still mix up with people

I think socially it is fine, as London is a international city however, academically it is definitely going to be challenging.

I'm not that good in English, can I still mix up with people

Socially it is absolutely fine as you will meet a lot of people from different parts of the world and with different backgrounds but you definitely need a good level of English to make the most of your time at City :)

If you would like to chat with any of our student ambassadors, you can do so via our new peer-to-peer platform! Please visit [www.city.ac.uk/ask-a-student](http://www.city.ac.uk/ask-a-student) to start chatting to our students now.

**Ask a student**

Speak with one of our current students and find out more about what it is like to study at City.

---

**Hiya I will be applying to study aerospace engineering at city! Any advice for applying?**

**Hi I applied through clearing however, I would advise just keeping on top of your current studies!**

**So do you have any advice for me**

If you follow this link, it will take you to a website where you can find more information about your course and entry requirements! [https://www.city.ac.uk/study/courses/undergraduate/beng-mechanical-engineering#during-your-course](https://www.city.ac.uk/study/courses/undergraduate/beng-mechanical-engineering#during-your-course)

**Mechanical Engineering (BEng)**

City, University of London’s Mechanical Engineering BEng course is designed for students who have an interest in transport, energy, materials, industrial design and the manufacturing of industrial and commercial products.

---

**So do you have any advice for me**

We also offer the INTO City as it offers English language to prepare you for the Degree :)
